Diagrama Aranha Kaputt!

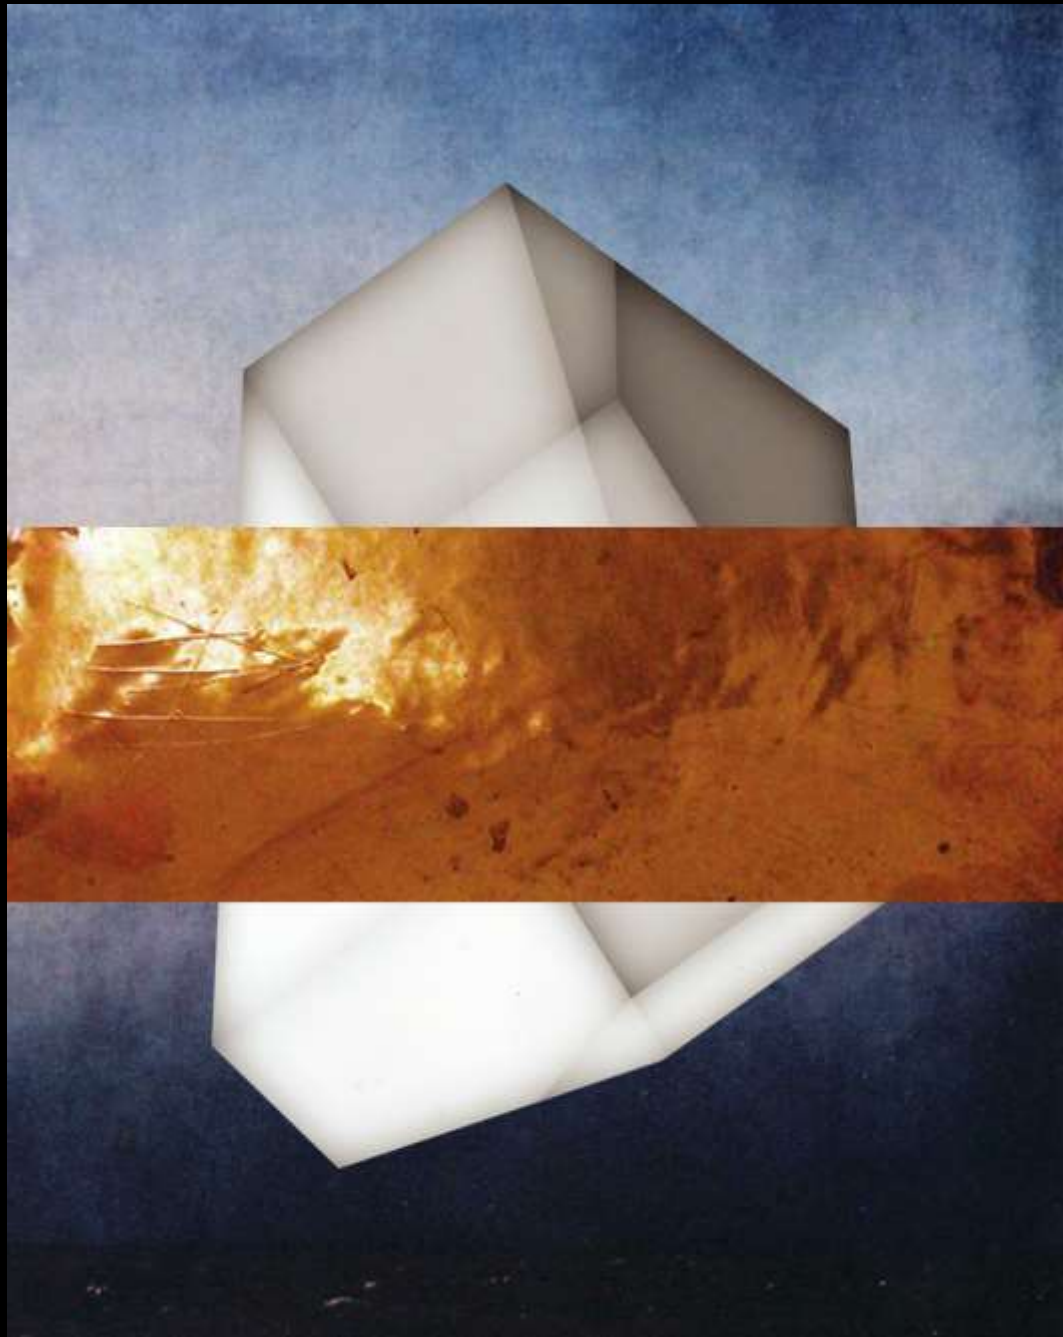

1. O atelier Kaputt tem cinco anos de existência, e na altura da sua fundação era constituído por cinco arquitectos e cinco arquitectas, com idades entre os 21 e os 27 anos. O objectivo inicial do atelier era desenvolver um método de projectar arquitectura em conjunto, que não se assentasse em qualquer tipo de hierarquia formal entre os seus membros. Quem antes se junta em bando habitualmente não é para projectar, mas sim para discutir e ser motivado, e é a que nos tem acompanhado todos os dias, ao longo destes cinco anos. Uma vez a ideia muito mais avante, a única uma arquitectura generosa o suficiente para acolher o inesperado e o ridículo da diversidade.

2. Desde o início procuramos que o nosso trabalho se pudesse sintetizar numa única frase curta, como as que costumamos ouvir - "precisava nos ensinar na arquitectura o exato tipo de inteligência do povo aliado", ou "...

Mas as obsessões constantes do atelier correspondem sempre a zonas interligadas, formadas pelas pontas comuns dos interesses individuais de cada um dos seus membros. Daí que apresentamos aqui, por esta forma, zonas adequadas a melhor forma possível de um diagrama aranha, do que a harmonia do nosso atelier.
